

AJINOMOTO AGRO SOLUTIONS

Your trusted and
reliable partner
of biostimulants
and co-formulants

UNLOCKING THE POWER OF ACTIVE COMPOUNDS FOR EFFICIENT PLANT GROWTH

Some call it magic
We call it science

THE POWER TO MAKE

Aj
AJINOMOTO

Agro • Solutions

Proven track record

- > Over **60 years** of manufacturing high-performance, cost-effective Tensiofix surfactants.
- > Almost **30 years** of expertise in developing plant-based biostimulants.
- > Part of the Ajinomoto Group with **100 years** of experience, a pioneer in fermentation and amino acid production.

The Power to Make Products that work

Lab and Field tested Biostimulants

- > Improve the resilience of crops under stress
- > Increase nutrient efficiency
- > Enhance soil health conditions
- > Increase yield and harvest quality
- > Sustainable solutions

Application Tested Surfactants

- > Ease of raw material handling and processes
- > Improve the stability of final products
- > Biological efficacy enhancement

We're your ideal, trusted and reliable partner in product creation

Ajinomoto Agro Solutions supports you in finding optimal solutions and ensures quality throughout the process.

Biostimulants and Raw Materials

- > Pure amino acids
- > Exclusive biostimulants
- > Protein hydrolysates
- > Organic matters
- > Formulation additives

Tailor-made biostimulants development and manufacturing

> Sustainable formulation development in B2B model

- Based on the study and deciphering of the action modes of plant-derived biostimulants,
- Supported by omics science, genomic and transcriptomic tools, as well as through high-throughput genotyping technologies.

> Guarantee of confidential and attentive service

> Innovative and exclusive biostimulants focused on functionality

Quality traits / Nutrient use efficiency / Soil health / Stress relievers

Surfactants and Co-formulants

- > Adjuvants
- > Emulsifiers
- > Wetting-dispersing agents
- > Co-formulation improvement service
- > Other additives

Development, scale-up and manufacturing

> Custom formulation development

Agro-chemicals / bio-pesticide / foliar fertilizers / biostimulant efficacy enhancement

> On-Site scale-up and troubleshooting

Product quality optimization
Pilot scale-ups in our facilities

> New formulation development

- Technologies: nano-sizing, seed coating, built-in adjuvants, mixing
- Sustainable solutions: bio-pesticides, micronutrients, bio agro-solutions.

Dedication to sustainability

We are dedicated to addressing the significant challenges agriculture is facing with a focus on sustainability. Our goal is to play a pivotal role in resolving the food crisis.

We achieve this by manufacturing high-quality products, with minimal environmental impact, and developing effective solutions. Our sites are ISO14001 certified and powered by 100% renewable electricity.

Dedication to science

Our approach is rooted in scientific understanding, enabling us to provide transparent explanations for the efficacy of our products. Through rigorous testing and analysis, we uphold our commitment to delivering scientifically validated solutions.

Our commitment to scientific principles drives the reliability and efficiency of our products. By leveraging data throughout our operations, we ensure that our solutions are optimized for effectiveness.

Dedication to quality

We take pride in our ISO9001 certification, ensuring our adherence to strict quality standards.

As an authorized economic operator, we guarantee efficient and compliant trade operations. With our expertise in supply chain management, we streamline processes to meet our customers' needs effectively.

The Agro Division of Ajinomoto OmnicheM

Ajinomoto Agro Solutions is the agro-division within Ajinomoto OmnicheM, a multidisciplinary company spanning services for pharma and fine chemicals, agro solutions, green science, and amino acids, collectively contributing to the health and well-being of all human beings, our society, and our planet.

We seamlessly integrate multiple decades of know-how and expertise, facilitate shared research, and leverage a global manufacturing network, establishing us as a trusted partner committed to providing science-based solutions.

What truly differentiates us is our dedication to sustainability, innovation and quality. We commit to true partnerships.

Together we have the Power To Make.
